Subject: 903 Pad, Mound, and East Trenches Remedial Investigation Report
Work Order No. 2029-17-04

Dear Mr. Greengard:

Twelve complete copies of the draft 903 Pad, Mound, and East Trenches Remedial Investigation report have been delivered to Rockwell International and other agencies per your instructions.

Five reports were delivered on 31 December 1987. Two of these copies were sent to the Environmental Protection Agency, and two were delivered to the Colorado Department of Health. Proof of report delivery on 31 December 1987 to these agencies is attached. In addition, you received one copy of the report on that date.

Seven copies of the subject report were delivered to Rocky Flats Plant on 11 January 1988. Four reports were sent to DOE (Building 115), two reports were delivered to your office in Building 750, and one copy was sent to Brent Lewis of Rockwell International.

There are still thirteen copies of this report available at our Denver office. Please contact me concerning the destination of these reports at your convenience.

Sincerely,

ROY F. WESTON, INC.
